NHDES Site #199603023, UST Facility ID #0113566

Reference: **Construction Approval Extension Request** prepared by Christopher P. William, P.E., PLLC, dated February 8, 2022, pursuant to the requirements of Env-Or 407.04(h)

Dear Prince Garg:

The New Hampshire Department of Environmental Services, Waste Management Division (NHDES) has received your engineer's February 8, 2022, request for a construction approval extension pursuant to the requirements of the New Hampshire Code of Administrative Rules Env-Or 400, Underground Storage Tank Facilities ("the UST Rules"). Specifically, it is requested that NHDES extend the February 23, 2021, conditional construction approval for the UST system installation at the subject facility. After reviewing the matter in accordance with the UST Rules, NHDES approves your request for extension.

The construction approval issued February 23, 2021, is hereby extended for one additional year, to expire on February 23, 2023. Please note that for operational approval of the facility to be granted, all requirements and conditions of the construction approval originally granted on February 23, 2021, shall be met. No substantial design changes to any part of the system shall be made without prior approval from NHDES in accordance with the requirements of Env-Or 407.04(e).

Please contact me should you have any questions regarding this extension of the conditional construction approval.

Sincerely,

Chad M. Hayes, P.E.
