Mark E. McConkey *Land Planning Consultant*

Town Planning/Zoning. State/Federal Environmental Permitting. New Hampshire Licensed Septic System Evaluator. NH. Permitted Septic Designer/Installer/Water Operator. MA. Title V Septic System Inspector

Good morning Rebecca;

I have been asked by Ramco LLC to apply for whatever is needed with the town, to get their inground storage tanks installed at the old Boyle location at the intersection of Leavitt Road and Rte 25. Can you tell me what they neglected to file for? Second question is at their own peril can they begin excavation (not the install) ahead of getting the town approvals?

Respectfully
Mark
