Subject: UST Conditional Construction Approval Extension

Site: Effingham, Aloha Effingham, 41 Route 25
NHDES Site #199603023, UST Facility ID #0113566

Reference: Construction Approval Extension Request prepared by Christopher P. William, P.E., PLLC,
dated February 7, 2023

Dear Prince Garg:

The New Hampshire Department of Environmental Services, Waste Management Division (NHDES) has received your engineer's December 14, 2022, request for a second construction approval extension pursuant to the requirement of Env-Or 407.04(h) of the New Hampshire Code of Administrative Rules, Env-Or 400, Underground Storage Tank Facilities (UST Rules). Specifically, it is requested that NHDES extend the February 23, 2021, conditional construction approval for the UST system installation(s) at the subject facility. After reviewing the matter in accordance with the UST Rules, NHDES approves your request for extension.

The construction approval issued February 23, 2021, is hereby extended for a second additional year, to expire on February 23, 2024. Please note that for operational approval of the UST system(s) to be granted, all requirements and conditions of the construction approval originally granted on February 23, 2021, shall be met. No substantial design changes to any part of the system shall be made without prior approval from NHDES in accordance with the requirements of Env-Or 407.04(e).
